## IN... THE Mad Rush

of the first two weeks  
of the Great Dry Goods Sale

-AT-

### T. L. Gant's Stand,

the cream of the stock, the best values, the real bargains were overlooked. For instance, a lady who wants a fine dress pattern would not think of buying it in a crowd like we had the first of the sale.

The stock of Woolen Dress Goods is enormous, they were bought at little more than half price, and the way we are selling them will make you sorry if you've bought. These three just to show you how they go.

42 inch all Wool Novelty Black Dress Goods, worth 50c., for 27c.

52 inch all Wool Venetian, elegant and up to date for 75c.

A few high class novelty Dress Patterns, worth \$3 to \$4 per yard, for \$1.00 yard.

## BULLETS WHIZZED

Close to Jailer Williamson's Head in the Dark.

Ollie Brown, a Colored Desperado, Escapes From Jail—Aided By a Woman.

Ollie Brown, a desperate negro prisoner, escaped from jail about one o'clock Wednesday morning, after firing two shots from a pistol at Jailer W. T. Williamson. The jailer owes his life to Brown's lack of marksmanship, and not to his indisposition to kill.

Brown is the negro who was recently arrested, charged with entering the toll office on the Nashville pike for the purpose of robbery and firing several shots at the toll keeper, Lawson Smith, when discovered in the room. He leaped from window and escaped and was at large for several months. He was visited in the jail Sunday by Viola Wheeler, a woman claiming to be his wife, who spent several hours with him, and it transpires, left a pistol and some files with him.

It has been a practice with some of the prisoners to burn rags in the cells, "smoke" each other, until Mr. Williamson would appear and stop it. The jailer was called about one o'clock Wednesday morning, and thinking something of this kind was on hand he took his keys and went into the corridor from the outer door. He started to reach for the electric light, but before he could turn it on a shot was fired and a bullet sped by his head. Still in the dark, he saw Brown dart by him and through the open door, turning once to fire another shot into the door to prevent pursuit. But the jailer was unarmed and thinly clad and in no condition to pursue an armed and desperate prisoner. The alarm was promptly given, but Brown made good his escape and is still at large.

With the tools furnished him, Brown had fled his way out of the cell and had also released some other prisoners. The others being without arms made no attempt to follow him in his break for liberty. About 10 o'clock Wednesday the Wheeler woman was arrested on a charge of aiding a prisoner to escape and was lodged in jail. She denied her guilt, but she was taken to the Racket Store and identified as a woman who bought some files there Saturday. As she was with Brown Sunday, the chain of evidence is practically complete.

## WILL PROBATED.

All of Estate Bequeathed To Son and Daughter.

The will of the late Mrs. Henningham Hord was probated Wednesday. To her daughter Mamie, and son Thomas, she left her property in Pembroke, consisting of a lot on which are several houses. Her son, David S. Hord, was named as executor. The instrument was dated July 22, 1897, and was witnessed by Messrs. E. M. Murphy, D. S. Hord and D. R. Murphy.

## THIN ICE

But the Cold Spell Is No Longer Here.

Another cold snap came Tuesday, reached its height yesterday morning and is passing off to-day. The mercury was down to 20 degrees Wednesday and 16 yesterday. The spell was altogether too mild to hold out my hope of ice and it is now almost certain that there will be no ice this season. The ice this week was an inch or more thick and there was some skating. Two days more of the cold wave might have made the crop thick enough to put up.

Mrs. H. C. Moore is visiting relatives in Princeton this week.

## TRIED TO POISON.

Morrow Family Finds Strychnine In the Food.

Fortunately Discovered Before the Poison Had Been Eaten.

An attempt to poison the families of Mrs. T. J. Morrow and her son, Thos. L. Morrow, was made last Sunday.

Strychnine was placed in the food intended for dinner, while all of the members of the two families were away from home. On returning from church Mrs. Will Croft, Mrs. Morrow's daughter, stopped at a bowl of custard and tasted a few drops of it. It tasted bitter and her suspicions were aroused and examination showed small white particles in the custard. A further inspection showed that all of the food in the kitchen had been poisoned with what turned out to be strychnine. It was found sprinkled over a dish of ham and also in the coffee pot. The coffee was thrown out and a dog that licked it up was thrown into convulsions.

The white powder was tested Wednesday and found to be strychnine. There was enough in it to have killed a dozen people.

The servants claimed to know nothing about it and the whole affair is still involved in mystery.

Mrs. Morrow is a son of the late Judge T. J. Morrow and lives with his mother near the city. Some months ago he had some of his stock poisoned and a few nights ago nearly all of his fine game chickens were killed.

He doesn't know whom to suspect, as he says if he has an enemy he doesn't know who it is.

## SIXTEEN SOLDIERS

Secured Up To Yesterday at Noon  
By Lieut. Shackelford.

Lieut. Shackelford has been in the city all of the week recruiting men for service in the United States army. He is making his office in Dr. McDaniel's office in the McDaniel building. Up to noon yesterday sixteen soldiers had been enlisted. Of these five were white men and eleven colored. The names are withheld by the recruiting officer. He will remain the rest of the week.

The men will leave Saturday night for Louisville and from there will be sent as soon as possible to Manila.

## POPS WON'T FUSE.

Reject Republican Overtures In Caldwell County.

Princeton, Ky., Feb. 20.—The attempt of the Republicans to get the Populists to fuse with them has met with a signal failure. The Populists will not consent to any of the overtures tendered them. The office of sheriff was offered them, but they declined and W. J. Brown has announced for the Republican nomination for that office.

## BACK FROM THE ARMY.

Clarence Giles Returns From the Philippines.

Mr. Clarence E. Giles, who has been absent for two years in the United States Army in the Philippines, returned home Wednesday. He arrived in San Francisco from Manila, a week or two ago, and after being mustered out, came on at the time and was reported to have died the next day. The burial was a hurried one and gave rise to neighborhood rumors that Merrick or a neighbor had been killed on a forged charge. Merrick was ill at the time and was reported to have died the next day. ## ONE HUNDRED DOLLARS

Damages Awarded the Merricks In Suit Against Officers.

Cadiz, Ky., Feb. 21.—The jury Monday returned a verdict of \$100 for the plaintiffs in the damage suit of Robert Merrick and wife against Sheriff Sheriffs Wiley Jones and William Dodd.

The Merricks sued for \$5,000 damages for the humiliation consequent upon the effort of the officers to arrest Frank Merrick on a forged charge. Merrick was ill at the time and was reported to have died the next day. The burial was a hurried one and gave rise to neighborhood rumors that Merrick or a neighbor had been killed on a forged charge. Merrick was ill at the time and was reported to have died the next day.

Prof. C. B. Pittman and wife, of Lafayette, will, in a few days, leave for California to make their future home. Mrs. Pittman has been in bad health for some time. They will make a short visit to Mr. Pittman's relatives near Greenville before taking their departure for the Pacific coast.

## THREE MORE PEARLS.

This Time One Oyster Yields a Pair.

Mr. James P. Thompson, the tobacconist, broke the record a finding pearls in oysters. He found two in one oyster. They were about the size of those previously found by G. H. Champlin and T. S. Knight.

One was round and the other oval in shape. Like the others found, these were heated in cooking the oyster and injured.

Mr. P. P. Huffstod, of Church Hill, also reports finding one a few days ago in the same way. In his case the oysters were eaten raw and the gem discovered in unjaded and is a beautiful stone. In size it was about like all of the others found.

All of these, as well as that of Mr. Champlin, were found in oysters bought from J. K. Twynam and came from S. M. French, of New Orleans.

## BABY AT 65.

One of Nature's Most Remarkable Freaks.

Since Birth Ellen Leek Has Been His Pless and An All But Inanimate Object.

New York, Feb. 19.—Although a woman of sixty-five, Miss Ellen Leek, really a baby of a few months, is still in Babylon, L. I. To physicians she was one of the most remarkable freaks in medical history. She never heard a sound, never spoke a word, never walked a step, as the doctors say, never experienced a single sensation of pain or pleasure in her long life.

Silently she was animate. Mentally she was dead. Her nearest approach to human intelligence was when a child of nine years old she crawled much like an infant ten months. This was her only method of locomotion for many years, or until she became too feeble to move. She had been dying of age for the past two years.

Although dwarfed by inactivity, she did nothing else, her heart and other organs of the trunk were normal, but there was enough only to sustain a negative activity. Even when she crawled she moved at a snail's pace literally.

Her face was a nightmare. Physically perfect as to features, the look of the slightest suggestion of intelligence produced a horrifying expression on a spectator.

All her long life she had been cared for most tenderly by relatives who had learned to cherish the helpless thing in female form. She survived many who passed in her family a happy or a sad existence.

## A Familiar Falsehood.

When a customer seeks to purchase some well-known, widely advertised, standard article, and the dealer tries to sell him something else claiming the offered substitute to be "just as good," that dealer is guilty of flagrant falsehood.

If the substitute were just as good it could sell on its own merits and would be called for by customers instead of having to be unloaded from them by means of falsehood and deceit.

The very fact of the comparison "just as good" proves the claim to be untrue. We measure up, not down. We measure the less by the "just as good" catered by the "just as good" unknown or the local town article is ranged up against a well-known standard article, the very fact of such measurement and comparison, stamps the substitute as a lesser thing than the standard article to which it is compared.

But this is only half the truth. If this we prove the claim "just as good" to be a falsehood, but the extent of that falsehood it is impossible to estimate. "Just as good" means, in general, adulteration in purity of purity, an uncertainty instead of a certainty, cheap material instead of good material.

And beyond all this the adulterators may not be simply in the weights and cheats but also may be dangerous poisons.

When the dealer says "just as good," ask yourself "just as good" for whom? You will find in the answer to that question the motive of substitution, which the extra profit paid the dealer by the sale of substitutes and imitations of some and wares. Practically the dealer says, when practicing the good bad substitution, "This is 'just as good' for you, because it is a great deal more profitable for me, and anything is good enough for you which increases my profits."

Bands of stitched cloth trim the skirt of bedclothes of piano gowns.

A face that cannot smile is never good.

Catarrh,

Catarrh is an American disease, is cured by an Amaranth seedling originated in the tropic catarrhal of America.

catarrh medicine is Hood's Sarsaparilla.

Dentes Individually and permanent, it cures it removes the cause, causing the blood of venofusus and other impurities. It overcomes all effects of catarrh, too, and builds up the whole system.

## FRANCHISE TAXES.

Railroads Hit Hard With Heavy Back Taxes.

Statement Being Prepared in the Auditor's Office Giving Details.

Frankfort, Ky., Feb. 20.—The state board of assessment and valuation on Saturday last, on the instruction to have the franchise valuation of railroads for the years 1890-190 inclusive certified to the various counties, municipalities and school districts, decided in favor of the county attorneys. A careful calculation in the auditor's office has disclosed that the aggregate amount of the franchise to be thus certified will be the sum of \$56,408,184.

From the best information obtainable it seems that the rate of taxation combined for counties, municipalities and school districts is at least \$1.10 on each one hundred dollars' worth of property, at which rate the total amount of money to be expended by the railroads to the various counties, cities and school districts will be the enormous sum of \$620,410,02. The appended list shows the amount of franchise that each railroad will have certified out unless interfered with by the courts. This, coming in the nature of back taxes, in addition to current taxes paid by each railroad to the state on its tangible and franchise property, makes a very heavy burden on railroads to bear.

Hall's family pills are the best.

## Eczema

How it reforms the skin, relieves, cures, removes scabs! Some people call it tetter, milk crust or salt rheum.

The suffering from it is sometimes intense; local application and resort to various salves, cures. It proceeds from humors inherited or acquired and persists until they have been removed.

**Hood's Sarsaparilla** positively removes it, has recently been recommended cured in all cases, and is without an equal for all cutaneous eruptions.

Hood's Sarsaparilla is the best sarsaparilla. Price 25 cents

Judge Hazen, of Topeka, seems to have found a way to stop Mrs. Nation's crusade. She was arrested on a warrant charging an international breach of the peace and a peace bond fixed at \$2,000. As she declared she would continue to smash saloons, no one could be found to go on her bond and she was placed in jail Monday and has not yet been released. In the meantime, while the "Carrie Nation Home Defenders" have organized at Winfield, Wellington, Herrington, Arkansas City and many other towns and issued ultimatums to the saloon keepers. In a resort to arms at one place on Tuesday while raiding, the wife of the bartender, Mrs. Hudson was killed and two other bystanders wounded. This is the first loss of life resulting so far from the "crusade" against liquor.

The Boers derailed one section of Gen. Kitchener's train at Klip River Tuesday and while the general got away they captured his baggage. Gen. Kitchener has temporarily abandoned the chase after DeWet and has returned to Pretoria. Smith-Dorrien's column also encountered Gen. Botha and lost 24 killed and 46 wounded, and out-canness is felt for the survivors of the column.

A London bicyclist ran against King Christian, of Denmark, who was promenading with Prince Waldemar, and after knocking the King over abused him for getting in the way, being ignorant of his identity. The bicyclist was arrested, but King Christian ordered his release.

### BECOMES A COUNTESS.

Miss Longworth, of Cincinnati, Weds the Count de Chambrun.

Cincinnati, Feb. 19.—The marriage of Miss Clara E. Longworth, of Cincinnati, to Count Adelbert de Chambrun, of France, was solemnized at noon today by Archbishop Ireland, a close friend of the bridegroom. The wedding took place at the home of the bride's mother, the widow of the late Judge Nicholas Longworth, on Grandin road, East Walnut Hills. The maid of honor was the bride's sister, Miss Annie Rives Longworth. The maid was Miss Elizabeth Groesbeck and Miss Anne Harrison. The usher was Meador, George M. Anderson, Buckner A. Wallford, William Ramsey, Burton Hollister and Lowell Fletcher Huntington. The bride was given in marriage by her brother, the Hon. Nicholas Longworth.

Miss Longworth is the granddaughter of the late Joseph Longworth, whose father Nicholas Longworth, was the first of the family in Cincinnati. He laid out the foundation for an immense estate, which will make his descendants wealthy. Mr. Belvoir Storer, wife of the Hon. Wm. V. Storer, is a daughter of the bride. The Count de Chambrun has spent much time in the United States, his father having been for twenty years or more at Washington in the diplomatic service. The Count has an ideal home in the south of France.

### SHILOH BATTLEFIELD.

Reunion to be Held There on Fight's Anniversary.

At a meeting held recently by the Shiloh Battlefield Association it was decided to have a reunion to commemorate the battle which was fought April 6 and 7, 1862. It is believed that the monuments which the State of Illinois is erecting will be ready and will be dedicated on this occasion. That state has spent about \$60,000 for monuments to mark the place her regiment held. Many other states have placed marks and monuments all over the battlefield.

## MEANS BUSINESS.

Tennessee Mob Making It Hot For Ravishers.

One Lynched and Two Others Will Be When They Are Captured.

Fulton, Ky., Feb. 20.—The mob at Dyersburg, Tenn., took Beecher Montgomery from the jail at Dyersburg last night and swung him up to the limb of the famous "Mike Lynch tree" five times, letting him down each time he was hauled up to make him confess his complicity in the assault with Fred King upon Miss Alice Arnold.

The negro denied his guilt and finally the mob carried him back to jail, more dead than alive and delivered him to the jailer. The mob was led by an organized vigilance committee who decided not to lynch Montgomery until the third guilty negro was found, whom King implicated in his confession.

This negro is being sought for by detectives. The vigilance awards that when he is found the two will be lynched together. There is hardly any doubt that Montgomery will be lynched this week.

In his confession, King said he had slated five of the best young women of Dyersburg for the assault and this is the cause of the spirit of vengeance among the citizens. A number of negroes were whipped out of Dyersburg last night.

### An Arkansas Case.

Mena, Ark., Feb. 20.—A mob of eight men took Peter Berryman, a negro, out of jail to-day and hanged him to a tree. Berryman had been arrested on charge of having assaulted a twelve year-old girl whose condition is critical.

The claims of other cough medicines to be just as good as Chamberlain's are effectually set at rest by the following testimonial of Mr. C. D. Glass, an employe of Bartlett & Denney Co., Gardner, Mass.:—  
"Boys: I had kept adding to a cold and cough in the winter of '97, trying every cough medicine I heard of without permanent help until one day I was in a drug store of Mr. Houshland and he advised me to try Chamberlain's cough remedy and offered to refund my money if I was not cured. My lungs and bronchial tubes were very sore at this time, but I was completely cured by this remedy, and have since always turned to it when I get a cold, and soon find relief. I also recommend it to my friends and am glad to say it is the best of all cough medicines. For sale by all druggists."

### TELEPHONES IN THE SOUTH.

Bell Company Contemplates Extensive Development To Head Off Competition.

New York, Feb. 20.—From a most reliable source it is learned today that the Southern Bell Telephone Company, operating seventy exchanges and a valuable long distance system in Virginia, North Carolina, Georgia, Alabama and Florida, contemplates an extensive development to head off competition, which exists extensively in Georgia, Alabama and Florida.

All important points will be connected with the long-distance service, which may be extended to meet the contemplated Cuban connection.

The East Tennessee Telephone Company, operating under the Bell franchises forty exchanges in Tennessee, has already passed into the hands of the Cumberland Telephone Company. The capital stock of the East Tennessee Telephone Company is \$300,000; bonds, \$2,000,000.

I babbled into Mr. Blackman's drug store one evening, says Wesley Nelson of Hamilton, Ga., and he asked me to try Chamberlain's Pain Balm for rheumatism with which I had suffered for sometime. I told him I had no faith in any medicine as all had failed. He said: Well if Chamberlain's pain balm does not help you, you need not pay for it. I took a bottle of it home and used it according to directions and in one week I was cured, and have not since been troubled with rheumatism. Sold by all druggists.

## THE TELEPHONE.

Great Possibilities of This Very Useful Invention.

Capital interested in the development of the telephone realizes that under patents granted to Dr. Pupin telephony is very likely to make a wonderful advancement in the early years of the present century. The public is even promised that as a result of Dr. Pupin's discoveries it will be possible to carry on a conversation over a transatlantic cable. If all the claims are supported, it is evident that there will come a general improvement in long distance land lines. It is just such possibilities as these that will give great interest to the telephone exhibit to be made at the Pan-American Exposition. At some time or other, in their homes or in connection with business affairs, almost everybody comes in touch with the telephone service, and for this reason they will be instructed as well as entertained by what the Pan-American Exposition will present for their enlightenment.

### ROYAL CHANGE.

Edward Shakes All of His Old Friends.

London, Feb. 21.—King Edward is giving his erstwhile sporting friends the "froze face" and the "marble heart." It is Prince Hal at the dawn of the Twentieth century. But the poor and discarded Falstaffs are being counted by the score. The latter victim of royal caprice is Lord Marcus Beresford, "Marky," as all male royalty called him, was the Prince of Wales' chief functionary in racing matters. In fact, he was Albert Edward's crony. On Saturday Lord Beresford called on the king and, extending his hand, exclaimed: "Howdy?"

"Good morning, Lord Marcus Beresford." And then the new king turned away, leaving Beresford the object of sympathetic glances from all around. The snubbed nobleman retired in tears and now all London is asking: "Who will be the next Falstaff to receive the fickle stare?"

### Danger of Colds and LaGrippe

The greatest danger from colds, and grippe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's cough remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of dangerous malady. It will cure a cold or an attack of grippe in less time than any other treatment. It is pleasant and safe to take. Sold by all druggists.

### The Latest in Electric Lighting.

Not more than 15 years ago the electric light was considered a novelty. Who can remember standing out in the street awaiting the first turning on of the current in their city or town? Today a large force of men at work wiring the beautiful buildings of the Pan-American Exposition, stringing wires about the grounds, in order that the wonderful display of lighting a great exposition may be made by means of electric current transmitted a distance of over twenty miles.

Edward Cudahy, Jr., has identified an ex-convict named James Callahan, under arrest at Omaha, as one of the men who kidnapped him. He says Callahan is the man who asked him to get into the wagon and subsequently kept company with him in the house to which he was driven.

Carrollton, Ky., Feb. 10.—The editorial comment on current affairs in the Feuilly Review of Reviews, the death of Queen Victoria and the accession of King Edward, as the overshadowing events of the past month, demand first place. Excellent portraits of the lamented Queen, the new King, Queen Alexandra and other members of the British royal family accompany the text. The editor analyzes the remarkable influence of Victoria as a sovereign, reviews her long and splendid reign and points out the elements of strength and stability in the monarchy as it will be administered by Edward VII.
